What is **WORKER** **TECH**?

Technology that is designed and developed
to improve the lives of workers

The challenges

1. Rising work insecurity
2. Displacement and change in the job market
3. Decline in worker voice and empowerment

The challenges

1. Rising work insecurity
2. Displacement and change in the job market
3. Decline in worker voice and empowerment

The opportunities

- New models that improve pay and security
- New ways to re-skill and up-skill workers
- Tools for organising and knowledge sharing

The challenges

*Where tech for good
can make a difference*

1. Rising work insecurity
 - New models that improve pay and security
2. Displacement and change in the job market
 - Reskilling and upskilling
3. Decline in worker voice and empowerment
 - Organising and knowledge sharing

WORKER TECH

meetup.com/WorkerTech

1. Good work in the gig economy London, 15 October
2. Worker voice and empowerment Bristol, 20th November
3. Skilling the future workforce Manchester, 28th November
